

THE Herald wants a glass factory at Phillipsburg.

JOHN CURTIS, of Elk Falls, Kansas, has obtained a patent on a sectional horseshoe.

If the Globe-Democrat is not a liar, it is the remark of a prominent physician, who has given much time to the subject, that seventy per cent. of the women of the West are burdened with growth of hair upon their faces.

THEY are not in the habit of making up United States senate committees without remembering our Senator Plumb. He now has places on the committee on agriculture and forestry, of appropriations, and is chairman of the public lands committee.

THE Quinter Guide young man permitted Collyer to rest a week, in order that he might catch a sucker. The main thing is to give Collyer a rest from innuendoes of which she is wholly undeserving. We care not how many suckers he catches.

THE Hotel LeGrand at Ness City was destroyed by fire Tuesday night of last week. The LeGrand, the News says, was owned by Eugene Brusher, of Walnut City, and was insured to its full value—\$2,500 on the building and \$1,000 on the furniture.

THE Ellis Headlight is what can truthfully be called one honest boomer. Listen at its words of wisdom: "The great boom to Ellis by reason of the change in the run of the passenger conductors financially amounts to \$450 a day, and that amount the Ellis house gets."

FARMER friends approve our action in pushing the demands for a farmers' institute in February. They say there will be one without a doubt. Of course, there will. More than this: A large gathering of farmers will vie with each other in making its proceedings interesting and instructive.

At Phillipsburg C. T. Corning pressed his evil presence upon Mrs. Miner until she had him arrested. He was fined a hundred dollars and given three months in jail. He appealed the case, and furnished bonds for his appearance at the district court. The husband of Mrs. Miner, the Herald says, is believed to have induced Corning to act toward her as he did. The husband and wife, who did not agree before, have separated permanently.

A SHORT time ago, one mile south of Long Island, Phillips county, James Waddle and family, just after having moved into their new house, which was half log and half dugout, with a dirt roof, were entrapped by the ridge pole, or main support of the roof, breaking with a crash. A five-year-old girl was killed outright, and the father was badly injured about the head and back. The balance of the family escaped without serious injury.

BRO. TILTON, of the Wa-Keeney World, may as well put his heart to rest. There is not likely to be an extra session of the legislature this winter. [Abilene Gazette.] What's the matter with you, Brother? Have we said there would be? Whether an extra session is to be called is not the question. The question is whether one should be called. From the way the newspapers from Topeka west copy our "A-State-Crime" article, and shower upon it favorable comments, it is evident that the World has struck a rich lead. And just here we wish to record the fact that the Gazette itself, regardless of whether the fourteen new counties will have to submit to disfranchisement for five years yet, will not, for an instant claim that such forced submission has in it any of the merits which freemen admire.

THE "CAPITAL"

The Topeka Capital has been an almost phenomenal success from its entry into the morning newspaper field. It is full of convictions and courageous in the extreme. It furnishes a large quantity of general and home news, and never forgets to express its opinion of passing events of importance. Major Hudson, the proprietor and editor in chief, although not a Kansan by birth, is a typical Kansan—bold, self-reliant, aggressive, and a steady worker for the right as he sees the right.

About a week ago the Capital put in a "Goss perfecting press," which turns out every second while in motion four papers printed completely, pasted and folded. This machine is run by electricity, and cost \$14,500. The aggregate expenses of issuing the Capital the past year have been, its management announces, \$80,000; and it is claimed that for the coming year twenty-five per cent will have to be added to this vast sum. Truly, the Topeka Capital is a great and good paper.

MANUFACTURING ENTERPRISES.

It is often said that manufacturing can not be made to pay on the plains. The meaning of this is that manufacturers would have to ship their fuel from too great a distance. This condition may be a drawback. We think it is not. The cheapness with which raw materials for production can be shipped to Wa-Keeney, in contrast with the shipping rates of manufactured goods from distant points, it seems to us, heals this defect.

Now, whatever may be the individual success of the booming business, it is evident to all reasoning people that the prosperity of every community ought to be grounded upon a surer foundation than this. In other words, the people of any community should, as a whole, be so circumstanced as not to be affected disastrously by the appearance or departure of booms. Is it so now? You know it is not! The collapse of a boom means privation and suffering to many who have not been in the swim, as well as to a large proportion of those who have.

Thus far, we have located a disease, without naming a remedy. Manufacturing enterprises are the remedy. The principle lies in the fact that each legitimate manufactory established is the means of a certain amount of wealth being produced to swell the aggregate money circulation of that community. In this manner, every well-conducted blacksmith shop is a blessing. There is in Wa-Keeney a shoeshop which furnishes employment to two men besides the proprietor. We recognize the blessings which flow from every reputable employment agency in Wa-Keeney. It is evident that the safest basis of permanent prosperity for this community lies in the plan of increasing the number of these agencies to the utmost limit in the proper direction. If a business is already crowded, its multiplication means failure. But, take a manufacturing enterprise like the one which is treated of in our local columns: There is room for this. There is room here for one good broom factory. It would hold in this section of country the broom-corn which is grown here. Such a factory would afford employment to several men, and supply dozens of merchants with brooms, who now send east for them. There is, it seems to us, a plain opening here for a factory for the compression of hay, corn-fodder, old straw, weeds and other native vegetable matter into bundles for fuel. Common intelligence demands a factory of this kind, and we believe a bonanza awaits the manufacturer who develops in western Kansas such a blessing. The longer we do without a grist mill at Wa-Keeney, the longer we continue to invite to stay away enough people to swell the general trade of the town to proportions at least one-third greater than its present dimensions. There are other small and comparatively inexpensive manufacturing enterprises which Wa-Keeney could obtain as well as not by concentrating her business energies through a board of trade. In this way the town could be built larger by legitimate means, and these agencies would call for the building up of the rural portions of the county.

Now, there are men in Wa-Keeney who know these utterances to be true. We call upon them to meet, organize a board of trade, and proceed to business. It will beat waiting for a railroad to turn up as decidedly as sunlight beats starlight!

THE COAL SUPPLY.

The Topeka correspondent of the Kansas City Journal calls attention to the fact that the Santa Fe Railway company, as indicated in its reply to an official enquiry from the Kansas railway commission, is doing all in its power to relieve the distress which has been threatened from the scarcity of coal in southwest Kansas. The company claims that the coal dealers in Kansas do not act prudently in waiting until the arrival of cold weather to lay in their winter supplies. It says that they should do in Kansas as the coal dealers do in the Eastern states—lay in their principal supplies during the summer. The company says that the coal can neither be mined nor hauled rapidly enough to meet with safety these sudden winter demands.

This reasoning presents no flaws. It is to be hoped that northwest Kansas coal dealers will absorb its full meaning. —If you want pure home made lard call at Geo. Baker's market, on Russell ave.

—Geo. Baker keeps every thing to be found in a first class market; pork manage a specialty.

—An elegant line of fancy stationery at Ferris & Farmer's.

Renews Her Youth.

Mrs. Phoebe Chelsey, Patterson, Clay county, Iowa, tells the following remarkable story, the truth of which is vouched for by the residents of the town: "I am 73 years old, have been troubled with kidney complaint and lameness for many years; could not dress myself without help. Now I am free from all pain and soreness, and am able to do all my own housework. I owe my thanks to Electric Bitters for having renewed my youth and removed completely all disease and pain." Try a bottle, only fifty cents, at Dr. Jones' drug store. 4

BEGGS' BLOOD PURIFIER AND BLOOD MAKER.

No remedy in the world has gained the popularity that this medicine has, as a household or family medicine, no one should be without it. It has no calomel or quinine in its composition, consequently no bad effects can arise from it. We keep a full supply of it at all times. A. B. JONES, Druggist.

A Gift for All.

In order to give all a chance to test it and thus be convinced of its wonderful curative powers, Dr. King's New Discovery for consumption, coughs and colds will be, for a limited time, given away. This offer is not only liberal, but shows unbounded faith in the merits of this great remedy. All who suffer from coughs, colds, consumption, asthma, bronchitis, or any affection of Throat, chest or lungs, are especially requested to call at Dr. Jones' drug store and get a trial bottle free, large bottles \$1. 4
